3. GPA

GPA (cumulative)	The cumulative Grade Point Average is the average calculated for all subjects taken.
GPA for Major	For students taking a major/minor option, their award classifications will be based on the GPAs they obtained for both their major and minor studies.
GPA for Minor	The Grade Point Average for Minor takes into account subjects which are relevant to the student's minor studies.
GPA for Award	The Grade Point Average for Award is the final GPA value based on which the award classification of a student is determined.

All GPA values are capped at 4.00 before 2020-21. From 2020-21 onwards, all GPA values are not capped, and the highest GPA value is 4.30.

Grades obtained through credit transfer will also be taken into consideration in the GPA calculation.

Starting from the 2005-06 academic year, only the grade obtained in the final attempt of a retaken subject will be included in the calculation of the above GPAs. For some programmes, weightings may be applied in the calculation of the GPA for Award.

4. Credits Attained

The Credits Attained only take into consideration those credits which are relevant for contributing to the award being pursued by a student.

5. Medium of Instruction

English is the medium of instruction and is used for classes, written assignments and examinations unless special approval has been given to a subject due to its specific nature.
